

# Mini Project – October 2017

## Fungi Challenge

This year UK Fungus Day falls on 8<sup>th</sup> October. You can find out about UK fungus day events on the website <http://www.ukfungusday.co.uk/event/>

Our monthly project is to see how many different fungi you can find over the coming month. Make a list noting:

- Type of fungus:
- Date Seen
- Grid Ref
- Photograph – if possible

Bring your completed lists/photos to November's indoor meeting and share what you find. Prize for the person with the best list!

**To get you started try to find these fungi.**

Name: Puff ball

Where?

When?

Name: *Boletes edulis* / Penny Bun

Where?

When?

Name: *Amanita muscaria* / Fly Agaric

Where?

When?

Name: *Auricularia auricola-judae* / Jelly Ear

Where?

When?
