

Fungi recorded as present in 2016

Agaricus campestris var. campestris
Amanita muscaria
Armillaria mellea
Ascocoryne sarcoides
Auricularia auricula-judae
Bjerkandera adusta
Chalciporus piperatus
Clavaria zollingeri
Clavulinopsis corniculata
Clavulinopsis fusiformis
Clavulinopsis helveola
Clavulinopsis laeticolor
Clavulinopsis umbrinella
Clitocybe nebularis
Coprinus micaceus
Coprinus niveus
Coprobia granulata
Cordyceps militaris
Cortinarius paleaceus
Crepidotus mollis
Cystoderma amianthinum
Daedaleopsis confragosa
Entoloma conferendum var. conferendum
Entoloma rhodopolium
Flammulina velutipes
Galerina pumila
Ganoderma applanatum
Ganoderma australe
Handkea utriformis
Hygrocybe calyptriformis
Hygrocybe calyptriformis f. calyptriformis
Hygrocybe chlorophana
Hygrocybe coccinea
Hygrocybe conica
Hygrocybe irrigata
Hygrocybe laeta var. laeta
Hygrocybe miniata
Hygrocybe persistens var. persistens
Hygrocybe pratensis
Hygrocybe pratensis var. pratensis
Hygrocybe psittacina
Hygrocybe psittacina var. psittacina
Hygrocybe quieta
Hygrocybe reidii
Hygrocybe splendidissima
Hygrocybe virginea
Hygrocybe vitellina
Hypholoma fasciculare

Laccaria amethystina
Laccaria laccata
Lachnella sulphurea
Lactarius glyciosmus
Lactarius vietus
Laetiporus sulphureus
Leccinum scabrum
Lepista nuda
Lycoperdon perlatum
Mycena galericulata
Nectria cinnabarina
Neobulgaria pura
Panaeolus acuminatus
Panaeolus papilionaceus
Panellus serotinus
Paxillus involutus
Phallus impudicus
Physcia tenella
Piptoporus betulinus
Psilocybe semilanceata
Russula aeruginea
Russula atropurpurea
Sarcoscypha austriaca
Scleroderma citrinum
Stereum hirsutum
Stropharia semiglobata
Trametes gibbosa
Trametes versicolor
Tricholoma fulvum
Vascellum pratense
Xerocomus parasiticus
Xylaria hypoxylon
Xylaria polymorpha
